

# ENRICH > Supporting Evidence

Emphasis has been placed on research that is **both recent and peer reviewed**.

We are constantly **improving and developing** our understanding of the research available.

All research is independent of My Kiwi Green and has **no conflict of interest or bias** towards our products.

All research below supports claims made in both the description and ingredient list and only allows for results that are **statistically significant**.

## REISHI MUSHROOM (Ganoderma Lucidum)

- Ahmad, M. F. (2018). Ganoderma lucidum: Persuasive biologically active constituents and their health endorsement. *Biomedicine & Pharmacotherapy*, 107, 507–519. doi:10.1016/j.biopha.2018.08.036
- Ji, N.-F., Yao, L.-S., Li, Y., He, W., Yi, K.-S., & Huang, M. (2011). Polysaccharide of Cordyceps sinensis Enhances Cisplatin Cytotoxicity in Non-Small Cell Lung Cancer H157 Cell Line. *Integrative Cancer Therapies*, 10(4), 359–367. doi:10.1177/1534735410392573
- Jiang, J., Slivova, V., Harvey, K., Valachovicova, T., & Sliva, D. (2004). Ganoderma lucidum Suppresses Growth of Breast Cancer Cells Through the Inhibition of Akt/NF- $\kappa$ B Signaling. *Nutrition and Cancer*, 49(2), 209–216. doi:10.1207/s15327914nc4902\_13
- Lu, J., He, R., Sun, P., Zhang, F., Linhardt, R. J., & Zhang, A. (2020). Molecular mechanisms of bioactive polysaccharides from Ganoderma lucidum (Lingzhi), a review. *International Journal of Biological Macromolecules*, 150, 765–774. doi:10.1016/j.ijbiomac.2020.02.035
